EDUCATION

University of California, Berkeley | B.A. Economics *GPA: 3.6 | May 2027*

Relevant Coursework: Computational Structures of Data Science, Probability and Statistics, Managerial & Financial Accounting, Micro/Macroeconomics,

Awards: 2024 CAA Leadership Award, OCC Honors Program, 2023 CA Tennis Leadership Award, 2022 SOTM Award

PROFESSIONAL EXPERIENCE

Tesla **Fremont, CA**

Project Manager Intern *January 2026 – August 2026*

- Identified bottlenecks in shipment coordination and deployed an AI agent that automated supplier intake, logistics requests, and engineer updates, replacing repetitive manual workflows across Seating & Plastics teams, saving 5–15 minutes per request.
- Spearheaded end-to-end sourcing process on two plastic components, coordinating with both suppliers and engineers to home-line parts and launch for production while negotiating cost comparisons, ultimately saving ~360k in costs per year.
- Developed an interactive program tracker for 200+ plastic seating components across Alpha and Beta build phases, managing tooling status, supplier capability, and any risks for follow-ups, achieving 100% part readiness for production-level progression.

Bluebridge *Tennis* **Los Angeles, CA (Remote)**

Program Manager, GTM Strategic Programs *August 2025 – January 2026*

- Developed automated scheduling notifications and bulk SMS communication workflows, reducing repetitive manual coordination, improving information delivery, and simplifying communication between tournament organizers and officials.
- Built and deployed a centralized scheduling and communications platform supporting 48 umpires across the Southern California ITA league, consolidating umpire assignments, match schedules, and operational updates into a unified system.

Handbook AI **San Francisco, CA**

Product Strategy Intern *May 2025 – August 2025*

- Collaborated cross-functionally with founders and engineers to develop and deploy an AI agent addressing fragmented data and information gaps across internal teams, enabling automated task execution and contextual recommendations for users.
- Leveraged Claude-assisted development to prototype, test, and refine AI agent capabilities, translating workflow inefficiencies and user pain points into actionable product features, supporting product demonstrations for two prospective pilot demos.

BlackRock **Berkeley, CA**

Technical Consultant (Contract) *January 2025 - May 2025*

- Conducted competitive analysis across 10+ asset management platforms to identify gaps in digital content accessibility, user engagement, and product visibility, developing 8+ data-driven recommendations to optimize user experience and content.
- Designed interactive dashboards on Figma and Canva to visualize content funnel metrics, allowing cross-functional teams to develop data-driven insights for improving global content strategy, resulting in a stronger alignment with BlackRock's mission.

EXTRACURRICULARS & LEADERSHIP

Future Business Leaders of America - Berkeley Phi Beta Lambda **Berkeley, CA**

Investment Fund Co-Founder & Portfolio Manager *May 2025 - Present*

- Founded and managed the club's first investment fund, transforming surplus project revenue into a strategic portfolio model, designing an operating framework (50% ETFs, 20% single stock, 15% income, 5% thematic) to balance growth and risk.
- Developed automated portfolio tracking and performance reporting workflows using Google Sheets and Charles Schwab investment data, integrating macroeconomic indicators and portfolio analytics to monitor fund performance.

SKILLS & INTERESTS

Skills: Jira, Confluence, Microsoft Office (Word, Excel, PowerPoint), Python, R, Java, Adobe, Google Workspace, Adobe Cloud (Photoshop, Lightroom, Premiere), Apollo, Figma, and GitHub

Interests: Tennis, Pickleball, Biking, Running, Photography, Gaming, Rock Climbing, Hiking, Traveling, Sewing, Snowboarding
